Webinar Information

A Christ-centred strategic engagement in disability ministry would arguably empower your congregation as a community of collaborative equals and you as a role model of a disciple of Jesus. In this webinar, Dr Alfred H. Yuen focuses his discussion of a process of what he calls "Universal Design For Ministry" (UDM) on a 3-part generalizable strategy of initiating, advancing, and sustaining impactful whole-community collaboration especially for families with disabilities. This webinar is designed for beginners and veterans in a variety of ministry contexts.
